

THE 8 GYNAECOLOGICAL CANCERS

AUSTRALIAN
GYNAECOLOGICAL
CANCER
FOUNDATION

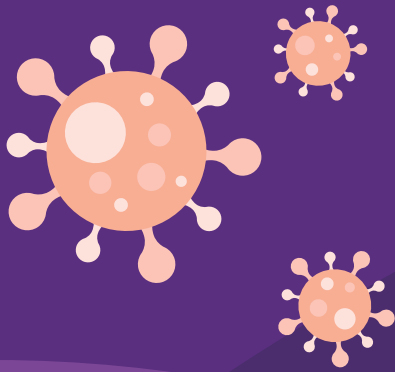

RESEARCH FUNDING IN AUSTRALIA

AGCF is the only Australian foundation focused on funding laboratory research into all 8 gynae cancers.

Help AGCF raise funds & provide research grants to Australia's best brilliant minds to find new ways to screen, treat & conquer gynae cancers.

Gynae cancer research helps to save lives agcf.org.au

Nearly all cervical cancer is caused by the **Human Papilloma Virus (HPV)**.

Support young people to get **vaccinated against HPV**.

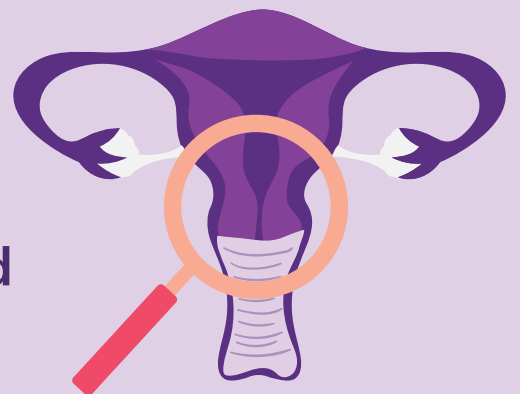

Get screened via self collection or a GP clinic nurse.

GYNAECOLOGICAL
CANCER
FOUNDATION

70%

of cervical cancer cases occur in people who've never been screened or are overdue for screening.

Help AGCF raise funds & provide research grants to Australia's best brilliant minds to find new ways to screen, treat & conquer gynaecological cancers.
